

REMARKS

The specification was amended to update the continuation data. Claim 1 was amended to correct a typographical error. Specifically, the word "grip" was replaced with the word "group". No new matter has been added by the amendment.

Formal drawings of Figures 1-5 have been submitted to overcome the objection to the informal drawings of Figures 1-5.

Claims 1-20 stand provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over Claims 1-20 of USAN 10/872,642. Applicants note that the cited reference is commonly owned by the assignee of the present application and has at all times been so owned. Consequently, the provisional rejection may be obviated by the submission of a Terminal Disclaimer which applicants have attached hereto.

In light of the above amendments and remarks, applicants respectfully request that the objection to Claims 1-20 for a typographical error and the rejection of Claims 1-20 under the judicially created doctrine of obviousness-type double patenting be withdrawn and an allowance of all claims is courteously solicited.

Respectfully submitted,
